Erasmus +	KA122-ADU	Senior AI Explorer – international educational mobility for seniors	2024-1-PL01-KA122-ADU-000218306	Leader	2024–2025	The project was an international educational mobility for seniors focused on AI, digital skills, and online safety. A group of older learners spent an intensive period in Spain, practicing everyday use of AI tools and learning to recognize disinformation, fake news, and protect their data. At the same time, the Foundation's trainers took part in job-shadowing, observing courses for seniors and gaining experience in non-formal adult education. This strengthened the Foundation's offer and reputation in the field of AI literacy and digital inclusion for older adults.
